

TUBMAN TIMES

**CELEBRATING VALENTINE'S DAY
WAS A PERFECT OPPORTUNITY TO
PLACE OUR FOCUS ON FRIENDSHIP**

February, 2021

**FEBRUARY WAS A VERY BUSY MONTH
FOR OUR HTASC STUDENTS**

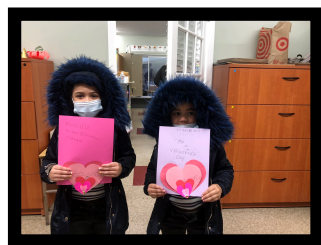

A FEW REMINDERS

Students enjoyed decorating and eating their cookies.

1) Please let Mrs. S. know if your child is going back to school for the Hybrid Program OR if they are continuing with Remote Program at home.

Valentine's Arts and Crafts

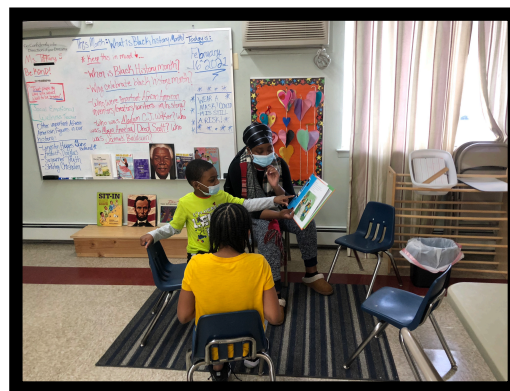

2) Have you picked up the Supplemental Work Sheet Book for your child's grade? If you have, please send it with your him/her each day your child attends.

BLACK HISTORY MONTH

Over the past few weeks, the students in both classrooms have been introduced to Black Americans who, despite adversity, have made some significant contributions to the USA. These individuals were both living or deceased. Some examples are Harriet Tubman, Rosa Parks, Ruby Bridges, Misty Copeland, Casey Jones. Finally they're working in pairs to make a poster telling about the highlights of their person's life.

Not only were the students immersed in exploring individuals who have contributed to Black History in the USA, on a lighter note they happily celebrated friendship and kindness on Valentine's Day.

Hearts were made, Valentine's cards were designed and, at the end of the day, the students decorated cookies which they immediately devoured before heading for home.

As part of Black History Month, Ms. Tiffany shares Last Stop on Market Street, by Matt De La Pena with two K-2 students

STEM ACTIVITIES WITH LEGOS

Legos are a great tool to explore building, as they engage the skills of planning, design and creativity across all ages.

Students counted the number of lego used and drew a picture of their construction.
