

TUBMAN TIMES

NEWS FROM K- 2

April/May, 2022

To recognize and to celebrate Earth Day, each student colored the planet Earth. Then they attached hearts on to their earth and on each heart they wrote actions that they can take right now to keep Earth clean and free from pollution.

BUTTERFLY GARDENS

Both classrooms (K-2 and GR. 3-5) are exploring and observing the metamorphosis, life cycle of a caterpillar as it becomes a butterfly. They are recording their observations in a journal and drawing detailed diagrams. When the butterflies hatch from their chrysalis we will take them outside and will release them into the fresh air.

SOME REMINDERS
